DEWAN'S MINUTE.

FILE No. 193

General Secretary.

It has been brought to my notice that the drainage in Kalasa Town is in a very bad condition, due to the formation of pools with stagnant water, which are a fruitful source of malaria. Public health of the town, which was once fair healthy, has been affected in consequence. The Amildar, who is also the President of the Municipality, should be required to take suitable measures to improve the sanitation of the place and maintain the drainage properly.

Drainage of Kalasa Town

General and Revenue Secretariat | File No. 44 of 1931. | [App. F. III—2

Serial No. 12

From the Muzrai comm^r
no 189/32-3 Dt 7/11/32 — a copy of this letter & its
records on the subject, states that
when the scheme for drainage was prepared
in 1931 at a cost of Rs 13775/- it was rejected by the D
for getting an alternative scheme for Rs 20000
as the scheme was a very ambitious one fo
a small place like Kalasa, as the surplus c
the credit of the temple could not be lega
timately diverted to this purpose & that
same holds good even now, that it does not
appear proper to spend temple money for
purposes not directly connected with it, but
that, since the impt of the drainage may
indirectly benefit the pilgrims, there is n
objection to contribute a small sum of R
2000/- or Rs 3000/- from temple funds, and that
he is therefore of opinion that if Govt or the
local bodies concerned cannot otherwise find
the amt reqd, the scheme may be abandone
or a less costly scheme within the limits of
the funds available may be called for,
Subd for orders with refce to Dewan's minute on page 1,
The question of the utilization of amts out of
the temple funds is a matter on which orders
have to issue from the Muzrai B^r,
MB^r 12/11

The Dy Comm^r letter Dt 13-8-32 to the
Muzrai Comm^r explains the facts of the case
The revised estimate proposed by the Comm^r is

~~Rs~~ Rs 10,000 (against the Murrai estimate of Rs 13,775) and this is proposed to be worked ~~out~~ out in 4 Stages, (annual) financing the Scheme from temple funds entirely among the slender resources of the Village Panchayat is not likely to bear any portion of the cost The Dharmadarsis of the temple are agreeable to the proposal & have resolved that the amount required for working out the first stage of the Scheme from A to B (viz Rs 3650) may be met from the temple funds

The Murrai Can✓ is however, not in favour of spending more than Rs 2000 or Rs 3000 from temple funds for the work and he has stated that if Govt or the local bodies cannot otherwise find the amount required, the Scheme may be abandoned or a less costly scheme may be got prepared. As stated above, the original scheme costing Rs 13,775 has been revised and it is not known if it is possible to have one costing less than Rs 10,000 & whether an estimate could be prepared for Rs 3000 which, according to the Murrai Can✓, can be spared from the temple funds. The Director of Health may be consulted on this point

As regards Govt or the local bodies meeting a portion of the cost, it is stated above that the Village Panchayat is too poor to contribute anything. Whether Govt can give a grant in aid of the work from the provision for the improvement of Cairs & Minor Municipalities every year till the work is completed may be considered If the Sum of Rs 3000 out of the amount required this Year is met from the temple funds, the balance required

General and Revenue Secretariat | File No. | of 193 .

Serial No.

GENERAL SECRETARY
16 NOV 1932
No.

viz Rs 650 may perhaps be given from the reserve of Rs 20,000 and add kept out of the grant referred for the next 3 years. The amount required viz, Rs 2700, Rs 1610, Rs 2040 respectively will have to be met from the same grant. If, however, half the cost of the Scheme viz Rs 5000 can be met from the temple funds, Govt may arrange to pay the other half by spreading it over the next 3 years.

The work is stated to be a very urgent one and cannot be put off please see Devaswom minute of 16.1.32 Devaswom. The Murasu Rs of the Devaswom may be credited

(Sd) 16/11

The importance of Kalasa is mainly dependent on the temple. The water supply scheme was mostly financed from temple funds. The temple funds can easily bear an expenditure of Rs 10,000 for the improvement of drainage and I must say I can see nothing improper in such a course. But whether the estimate of Rs 10,000 cannot be reduced

NOTE—Contn. Sheet.

is a matter for the consideration of the Sanitary Engr. If it is, the sclerosis stops at the T.B. though there is a portion of the village situated in lower down

11 December 1932
Asst Secy.

16/12
17/12

Though the amount of the estimate is large 10,000 Rs- & particularly so for a small village like Kalasa which has only 150 houses, it does not serve the whole town and the drain passes along areas which have no houses — adding to the cost unnecessarily.

The estimate may be required to be revised and reduced by confining the drains only to places where there are houses ignoring vacant places.

2nd Asst.

55 a drainage scheme costing Rs. 10,000/- is rather costly for a town of size of Kalasa. It is seen each drain has an independent outfall and of these can be executed in the order of urgency and financial resources of the village Panchayat. It is recommended that outfall No. 1 consisting of drains No. 1, 2,3,4 and 42 costing Rs. 2,501/- and drains for the Sri Kaleswar Swami temple be constructed in the first instance.

Drainage Scheme — Kalasa village

File No. 44 of 1931-32 — General and Revenue Secretariat

5) The Sanitary Engineer, Rockefeller foundation was requested to state if the estimate of Rs 10,000/- for drainage scheme at Kalasa (Kadur) was reduced: he has not suggested any revision or modification of the estimate, although he is of opinion that it is rather costly for a village of the size of Kalasa. He recommends the taking up of executing the work of certain drains at a cost of Rs 2361/-, in the order of urgency. Para 5 of G.O.

6) The municipal commissioner is of opinion that a sum of Rs 2000/- or 3000/- may be spent for the purpose out of Temple funds. A Scheme costing only that amount was prepared on previous occasion called for from the Executive Engr. Bureau of Sanitary Engineering. But in his letter dated 5-8-1931. to the D.C. Kadur District Maj. R. he gave the opinion that it is not possible to prepare a drainage Scheme within a sum of Rs 2000/-.

7) Kalasa has got a water supply thro' pipes, which scheme was completed at a cost of about Rs 32000/- met out of Kalasa Temple funds. Very recently an estimate for Rs 16,500/- was sanctioned for constructing a chatram, a dispensary and two official quarters which have also been completed: This was also met out of Temple funds, except for a small sum of Rs 500/- promised by a gentleman for the Veterinary Dispensary

Damage - Scheme - Kaleswaram Village

6- The present estimate for the drainage scheme is Rs (0,000)- the Dharmadarsis of the Temple have agreed to the withdrawal of the amount required from the amount at the credit of the Temple in the circumstances, it is for orders (1) if the estimate maybe sanctioned (2) or the question dropped as opined by the engineer (3) only the first stage of the scheme only ordered to be worked out as recommended by the Sanitary Engineer.

P.W.D. Para 2)

Para 55 of the Rules

6) Submitted for orders with reference to paras 9, 14, 15, 25, and 48 & 57 of the notes supra

Para 31.1.1933 Dy Secy) 31/1/33

7) The Temple has funds for the water supply scheme of the village and a drainage scheme is also absolutely necessary. I should think that the two schemes should go together. The temple is the only important institution and the village has sprung up there because of the temple. There is no possibility of the Panchayat tackling the scheme at all if left to itself. As a large concourse of people assembles for the Jatra which continues for a week or so it is

NOTE—Contn Sheet

Drainage Scheme — Kalasa village.

I agree. A drainage for this town is very necessary. The water supply at the place has increased its unhealthiness and the provision of proper drains is essential for keeping the place in a sanitary condition. I do not think there is any impropriety in using the temple funds for this purpose. The temple and the town go together and the interests of the one are the interests of the other.

I think a general approval may be conveyed to the total estimate costing Rs 10,000/-. The first part of the scheme for the provision of drainage for the portion marked A ~~and~~ to B costing Rs 3,650, may be sanctioned for execution. (It is not clear how the Sanitary Engineer takes the cost of this part of the scheme to be Rs 2,361/- in his u.o. note dated 16th January 1933.) The Dharmadarsis and the Deputy Commissioner approve of this scheme and recommend the part referred to being carried out at once. The Luzrai Commissioner, however, thinks that it may not be justifiable to spare more than ---

No.

Sir,

Bad condition of the drainage in Kalasa Town.

With reference to yourletter No.L.5183/V.P. 44-31-4 dated 25th January 1932, re: the above and calling for a report as to the measures required to be adopted for improving the sanitation of the place, I have the honor to state that the Amildar, Mudigere taluk, reports that there are some stagnant pools on either side of the road and round the water fountains and that arrangements have been made to drain off these pools with the aid of the Village Panchayet conservancy staff from time to time to avoid stagnation of water.

He adds that satisfactory drainage is necessary owing to the existence of a water supply system, that a scheme prepared by Mr. Marker at a cost of Rs. 13,775/- was dropped owing to want of funds and that a beginning may be made by improving a portion of the Town from the Temple to the Travellers Bungalow. The Amildar has been directed to get a less costly scheme prepared in consultation with the Sanitary Engineer and to submit definite proposals in consultation with the Village Panchayet and the Temple authorities. A further report will be submitted in due course.

I have the honor to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Kadur District.

FROM G. P. Rajagopalachari, Esq., B.A., B.L.,
The Muzrai Commissioner in Mysore,
Bangalore.

M.R.44.31-12

To

The General Secretary to the Government of
His Highness the Maharaja of Mysore,
Bangalore.

SIR,

With reference to your letter No.L.S.93 V.R.44-31 dated 10th September 1932 in the matter of utilisation of a sum of Rs.10,000/- from the funds of the Sri Kalasesvara temple for the improvement of drainage in Kalasa town, I have the honour to forward herewith the connected papers received with Kadur District Deputy Commissioner's letter No.A.C. 2815-31/ dated 13th August 1932 and to state as follows.

2 When the scheme for drainage was prepared in 1931 it was estimated to cost Rs.13775/- it was returned to the Deputy Commissioner for getting an alternative estimate for about Rs.2000/- only as the scheme was beyond the ambitions for a small place like Kalasa Town and as the surplus balance to the credit of the temple could not be legitimately diverted to this purpose. The same reason holds good even now. It does not appear proper to use temple money for purposes not directly connected with it, but as the improvement of the drainage would indirectly benefit the pilgrims visiting the temple, there is no objection for a small sum of Rs.1000/- or Rs.500 being contributed from temple funds. I am, therefore of opinion that Government or the local bodies concerned can otherwise provide the amount required, the scheme may be sanctioned as loans could be given within the limits of funds available for the purpose.

3 A copy of the Deputy Commissioner's letter is enclosed for reference.

I have the honour to be,
Sir,

hu

Letter No.A.6.2315-31 dated 13-8-32 from the Deputy Commissioner, Kadur District, to the Muzrai Commissioner in Mysore.

Drainage of Kalasa Town, Mudigere Taluk.

Adverting to the General Secretary's letter No.J.5183/V.P.44-31-4 dated 25-1-32 (copy enclosed) re: the bad condition of the drainage in Kalasa and calling for a report as to the measures required to be adopted for the improvement of the sanitation of the place, I have the honor to forward herewith the connected file of papers ending with Mudigere Taluk Amildar's report No.7/32-33 dated 26-7-'32 and to state as follows:-

The question of improving the drainage of this town was investigated and a scheme costing Rs 13,775/- was sent for approval in December 1930. It was returned by you as being ambitious and a less costly scheme was ordered to be prepared (vide No.966/30-31 dated 26-3-31). As the Kalasa Town has become malarial owing to stagnant pools, a less costly scheme than the one previously sent up was asked to be prepared by the Amildar in consultation with the Health Department. He was also instructed to suggest ways and means for financing the scheme. An estimate amounting to Rs 10,000/- to be worked out in four stages as noted in the margin, together with a plan was accordingly prepared by the Executive Engineer, Bureau of Sanitary Engineering, and submitted for consideration by the Dharmadarsis of the Kalasa temple as there was no other way of financing the scheme except from temple funds. The matter was placed before the Dharmadarsis at a meeting held on 21-7-32 and they have agreed to meet the cost of the estimate from the temple funds. The Village Panchayet is reported to have not sufficient funds at its credit and is not at present in a position to bear any portion of the cost. The portion marked in the plan from A to B is proposed to be taken up this year, and remaining portions being worked up in succeeding years.

1. A to B Rs 3650/-
2. B to C " 2700/-
3. C to D " 1610/-
4. D to E " 2040/-

It is reported by the Amildar that a sum of Rs 13,239-1-2 was at the credit of the temple on 1-7-32 that a sum of Rs 10,000/- or so, is due to the temple on account of the supply of sandal wood made to the Forest Department from the Inam Forest and that the utilisation of a sum of Rs 3650/- during the current year will not be a strain on the temple resources.

As the scheme referred to above is an urgent one and intended to improve the sanitation of the Kalasa Town and as the temple authorities have agreed

to meet the cost of the estimate from the Temple funds, I request that early orders of Government may kindly be obtained for utilising a sum of R 10,000/- from the temple funds for the above purpose and also sanction the estimate in question. If the finances of the Village Panchayet should improve, the Village Panchayet will be asked to bear the portion of the cost as they are equally responsible for the sanitation of the town.

The connected file of papers together with the plans, estimates and copy of the resolution of the Dharmadarsis is herewith forwarded for kind perusal and return.

No. 1209 Mysrai

From

The *Financial Secretary to the Government of His Highness the Maharaja of Mysore.*

To

The Chief Conservator of Forests in Mysore,

B a n g a l o r e.

Sir,

The Deputy Commissioner, Kadur District, states that a sum of about Rs.10,000/- is due to the Sri Kalaseswaraswami Temple at Kalase on account of the supply of Sandal Wood made to the Forest Department by the Inam Forest. I am directed to request you to be so good as to state whether the sum due to the temple has been credited to its account.

The matter may kindly be treated as immediate, as Government have sanctioned a drainage scheme costing Rs.10,000/- for the Town, to be financed out of the funds of the temple.

I have the honour to be,

S i r,

Your most obedient servant,

Sd/- S. Shamanna,

Financial Secretary to Government.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Read :—

Correspondence ending with letter No. 189/32-33, dated 7th November 1932, from the Musrai Commissioner in Mysore, in the matter of the utilisation of a sum of Rs. 10,000/- from the funds of the Sri Kalaseswaraswami temple for the improvement of drainage in Kalasa town, Kadur District.

Order No. Ag 1253-6 | Mog 189-32-2 Scheme filed

Bangalore, dated the 23rd February 1933. 25-2

Government consider that a drainage scheme for Kalasa town is very necessary, as the water supply at the place has increased its unhealthiness and the provision of proper drains is essential for keeping the place in a sanitary condition and that as the temple and the town go together and the interests of the one are the interests of the other, there is no impropriety in using the temple funds for this purpose.

Government are, therefore, pleased to accord a general approval to the whole scheme of drainage for Kalasa town, consisting of four parts as noted in the margin, the cost to be met out of the funds at the credit of Sri Kalaseswaraswami temple.

1. A to B.	Rs.3,650/-	(funds at the credit of Sri Kalaseswara-
2. B to C.	" 2,700/-	)
3. C to D.	" 1,610/-	(swami temple.
4. D to E.	" 2,040/-	)
	10,000/-	(

The part A to B consists of drains Nos. 1, 2, 3, 4, 5, 7, 42, and 43 at an estimated cost of Rs. 3,650/- . The Sanitary Engineer recommends that out fall No. 1 consisting of drains Nos. 1, 2, 3, 4 and 42 and costing Rs. 2,361/- and starting from Sri Kalaseswaraswami temple may be constructed in the first instance. Government are pleased to sanction for execution the portion recommended by the Sanitary Engineer. When the second and the subsequent parts of the scheme are

Ag

proposed to be taken up, they should be submitted to Government for sanction.
